

How to set up a Personal Tax Account with HMRC

APRIL 2018 / V:03

RIFTrefunds.co.uk

HMRC has introduced a new secure service to give you more access and control over your personal information. Basically, they want all individuals and businesses to handle their tax affairs online by April 2019.

So, if you don't have your P6Os and P45s to hand, no problem. You can get your RIFT Refund moving even faster by registering with HMRC for your Personal Tax Account. It'll only take 5-10 minutes to set up and means you can see all your pay and tax information for the last 4 tax years.

They're adding more services all the time. Right now, you can already:

- Check your Income Tax estimate and tax code.
- Fill in, send and view a personal tax return.
- Check and manage your tax credits.
- Check your State Pension.
- Track tax forms you've submitted online.
- Check or update your Marriage Allowance.
- Tell HMRC that you've changed address.
- Check or update benefits you get from work. For example, company car details and medical insurance.

Before you get started, you'll need a few things to hand:

- A Government Gateway User ID (don't worry if you haven't got one of these, we'll walk you through getting one in this guide).
- Your National Insurance number.

One of the following for proof of identity:

Your P60 Your most recent payslip Your passport number and expiry date.

- Access to either the HMRC website (link below) or the official smartphone app.
- Access to a mobile or landline to receive a security code.

Great stuff – you've done it! Now for the important bit.

To complete your refund claim, we need to know how much you earned and how much tax you paid in each tax year. This is so we can make sure your claim is accurate, and because HMRC asks us for this information as part of the process.

If you have P45s and P60s for all your employments, then you can post or email copies to us. If you don't have them, or you're missing any, we can get the information through your Personal Tax Account. Here's how:

The easiest way is to authorise RIFT to access your account. If you'd rather get it yourself and send it to us skip to step 22, otherwise, follow the steps below.

First, let us know you've set up your account and we'll send you a secure link, either by email or text, to authorise us to access your account. Call us on 01233 628648 or email info@riftrefunds.co.uk and remember to let us know if you'd prefer a text or email with the link on.

Make sure you're signed into your Personal Tax Account when you click on the link, or have your sign in details to hand.

- It might not always be possible to get all the information on one page, particularly if you're taking a screen shot. When you're sending us the details, remember to make the following clear:
 - The tax year they relate to.
- Total taxable pay.
- The employer they relate to. **Total tax paid.**

Here's some table headings you might find useful to recreate:

Tax Year	Employer	Total Income	Total Tax Paid

If, for any reason, you can't complete the steps above, don't worry. We can still access this information directly from HMRC. It just might take a little longer while we wait for them to register the authorisation forms you signed.

As soon as they do that (it usually takes a few weeks), we'll phone them and ask them to send you a letter with all the information we need on it. For security reasons, they can't send it straight to us. We'll let you know once we've done this, and explain how you can get the letter to us. As soon as we have that, it's all systems go for us to calculate your refund!
